PROFILE SUMMARY

Highly skilled and experienced Full Stack Software Engineer with a proven track record of designing and developing robust, scalable, and efficient software solutions. Adept at utilizing a wide range of programming languages and frameworks to deliver high-quality web applications. Possesses a deep understanding of both frontend and backend technologies, allowing for seamless end-to-end development. Strong problem-solving abilities, attention to detail, and a passion for innovation drive me to consistently deliver results. Excellent communication and collaboration skills enable effective teamwork and successful project execution. Seeking a challenging position where I can leverage my technical expertise and contribute to the success of a dynamic and forward-thinking organization. Looking forward to proving abilities as a Frontend Software Engineer with great interest and knowledge of the field.

TECHNICAL SKILLS

- | | | | |
|----------------|-----------|--------------|----------|
| • Git | • C / C++ | • Docker | • Scrum |
| • React | • Java | • Kubernetes | • Kanban |
| • React Native | • Python | • AWS | • DevOps |
| • Angular | • Node.js | • Azure | • Jira |

CORE COMPETENCIES

- | | | |
|-------------------------|------------------------|----------------------|
| • UI/UX Collaboration | • Decision Making | • Problem-Solving |
| • Project Management | • Analytical Thinking | • Time Management |
| • Troubleshooting Skill | • Quality Assurance | • Multitasking |
| • Relationship Building | • Attention to Detail | • Positive Attitude |
| • Code Optimization | • Communication Skills | • Team Collaboration |

SUMMARY OF PROFESSIONAL SKILLS

- Ability to work collaboratively in cross-functional team as well as UX and QA team to design, implement, test, roll-out and maintain new features and services.
- Strong debugging and problem-solving skills to identify and fix frontend issues efficiently.
- Knowledge of techniques to optimize frontend performance, including code minification, caching, lazy loading, and image optimization.
- Eagerness to learn and stay updated with the latest frontend technologies, frameworks, and best practices.
- Extensive knowledge of the common web frontend engineering concepts, design patterns, technologies, and frameworks such as Angular.
- Demonstrated ability to quickly learn new technologies, frameworks, or tools as per project requirements.
- Competence in languages such as JavaScript, Python, and Java, as well as with frameworks like React and Angular.
- Exhibit excellent organizational, communication, and quantitative skills, combined with a track record of success and the capacity to assume increasingly significant responsibilities.
- Skilled at identifying resource requirements to improve efficiency, productivity, processes toward successful attainment of organizational goals.

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Mar 2023 - Present

ALTEN, Strasbourg, France

- Designed the architecture for an internal application.
- Developed the internal application using Angular, Java Spring, Docker, Kubernetes and Terraform.
- Successfully managed the project using Scrum methodology, with experience as a Product Owner and Scrum Master.
- Collaborated with cross-functional team, such as designers and product managers, to deliver high-quality software solutions.

- Stayed up to date with emerging technologies, programming languages, frameworks, and industry trends through self-study, attending webinars, and participating in relevant training sessions.

Fullstack Developer

Jun 2021 - Present

Freelance

- Executed UI/UX designs to create visually appealing and user-friendly interfaces.
- Developed mobile apps for both iOS and Android platforms using React Native.
- Engaged in the development of web applications using React framework.
- Undertook entrepreneurial activities encompassing accounting and agile project management.
- Conducted performance analysis and implemented optimizations to improve page load times and overall performance.
- Shared knowledge and best practices with teammates, contributing to the overall growth and improvement of the development team.
- Performed frontend testing to identify and resolve UI bugs, functional issues, and browser compatibility problems.

Frontend Developer

May 2022 - Sep 2022

WebGate Consulting AG - Internship

- Developed an application for Microsoft Teams, as an internal product at WebGate.
- Designed and implemented an advanced meeting planning tool, "GoodMeeting", with the aim of increasing employee productivity.
- Built the frontend of the application using React, ensuring a responsive and user-friendly interface.
- Employed the Scrum methodology to manage the project effectively.
- Acted as the sole frontend developer on the team, taking full responsibility for the development of the MS Teams application.

School Projects

Sept 2020 - Jan 2022

ECAM Strasbourg-Europe | Strasbourg, France

- Big Data Project: Development and training of an Artificial Intelligence "Pokédex" in Python, designed to identify a Pokémon from an image.
- Technical Project: Development of an iOS application to remotely control an electric car (built during the project).
- Database Management Project: Development of a web application (using PHP, JavaScript, HTML, and CSS) to access specific data from a database (extracted from an ERP, Divalto).
- "Bomberman" Game: Development of a 2D game in Java, using the Scrum methodology for project management.

EDUCATION & CERTIFICATIONS

Arts & Métiers Engineering Degree

2018 - 2023

Icam, Strasbourg-Europe Campus

Bachelor's degree in mechanical engineering

2019 - 2020

Hochschule Kaiserslautern

1st year in Bachelor in Mathematics

2017 - 2018

EPFL, Lausanne, Swiss

IBM DevOps and Software Engineer

Jun 2023

Coursera

IBM Cybersecurity Analyst

Jan 2022

Coursera

Google UX Design

Aug 2021

Coursera
